Interfinish will be back to Japan this September!!
Nagahiro Saito, Professor of Nagoya Univ. President of IUSF

Hello, everyone. I am Hiro Saito from Japan. Let me introduce some latest information about Interfinish 2020. You can check the web for the great international show here to get the latest information about it at any time.

Interfinish, the great international conference, began in 1930s and continued to be held every four years so far. It has been around the world and once, it was held in Kyoto, Japan, in 1980. Then, It began to go around the world again. And this September, it will be finally back to Japan. This time, the conference will be held in Nagoya.

Nagoya is located almost at the centre of Japan islands. This is the fourth largest city in Japan with 2.3 million residents and has a long history as shown here:
https://www.britannica.com/place/Nagoya

This city is also the center for Chukyo metropolitan area and automobile industries have been prosperous. See: https://en.wikipedia.org/wiki/Chūkyō_metropolitan_area.

Therefore, you can enjoy the beautiful harmony and fusion of historical culture and modern industries. The following web page may be a useful guide for your visit.

But not only Nagoya, but you can have access also to many other Japanese beautiful sightseeing places by relatively short travel time because Nagoya is located at the center of our islands, Tokyo, Takayama, Ise-Shima, Kyoto, Osaka, and many other places, as shown in the following figure.
You can select your hotel from the following list. Those are just some portions of the list, but hopefully, they will be good references for you. Please check them once.

Unfortunately, we don’t have any contracts with hotels in Nagoya with special discount rates this time, because there are many discount hotels in our big city. And it would be very easy for you to find your hotel with reasonable prices, using Expedia, booking.com and trip adviser. I believe you will get a chance to find your hotels near Nagoya University, the conference site. From Nagoya Station area, it takes about 40 minutes to reach the university. And also in Sakae area or Fushimi area, you will reach the conference hall in about 30 minutes.

Please join us at Interfinish 2020. We will be waiting for you and look forward to enjoying the great show with you altogether.

Cheers!
Hiro
